MANIFESTO

SEXISM FREE NIGHT IS A PROJECT INVOLVING NIGHTLIFE PROMOTERS, NGOS AND A UNIVERSITY THAT AIMS TO PROMOTE SAFER AND MORE EGALITARIAN NIGHTLIFE ENVIRONMENTS.

WE STAND FOR:

A future where nightlife embraces a gender perspective in the promotion of safety, diversity & valuable experiences for all.

The recognition of nightlife's key role in shaping urban scenes and identities by offering space-times for creative development, experimentation and cultural activation of individuals & communities.

The counteraction of a male-dominated, binary, gender stereotyped and structurally unequal industry that limits opportunities, promotes violence and compromises freedom of expression and transcendence.

Nightlife's gender mainstreaming through a multicomponent & participatory approach aimed at night-time cultures and stakeholders.

The cooperation with other initiatives that contributes to the eradication of sexism joining efforts in the intervention with violence survivors or perpetrators.
